Instructions for Poekie Bag - No Sewing!*
(Time to complete: twenty minutes)

Materials needed:
• Paper for your printer • Scissors • Old sweater • Cord or Ribbon

How to make it:
For an experienced Poekie maker this is easy to make. After printing the pattern,[*2] just follow the steps:
• Find a big, old sweater from your parents that they're about to throw away. Make sure they are fine with you cutting it up!
•If it's one of those sports-sweaters that's made mostly out of cotton, you can use it as is. A fancier sweater made mostly out of wool is nicer, but you will have to wash and dry it in the machine using the hottest settings, before you can use it.
• Cut one sleeve off, from the armpit straight across the sleeve. You may want to draw a line before you cut.
• Snip six holes around the sleeve 'far' below the top edge, and right above the cuff. As marked on the pattern.
• Cut the cuff into fringe.
• Take a cord or ribbon and weave it in and out the six holes above the cuff. Pull the two ends tight and tie a knot.
• Take a little bit longer cord or ribbon and weave it in and out the six top holes.
• Put your Poekies and/or Poekie things in the bag, tie the ends into a nice bow and you're done!

I can't wait to see what you've made at home and let me know if any part of these instructions is confusing!
With love from the Poekies,
sophia

* For children age 8 and up, with parental guidance.

Warning: 1. Pins and needles' mission in life is to poke, and scissors only know how to cut. <u>You</u> must be careful and make sure that they poke and cut only the things that you want them to! 2. None of the materials used belong in a person's mouth, so be careful when you make this while little children are around you.   ©2009 Sophia van der Harst
