

## Instructions for Poekie Easter Flower Vine and Rosebud\*

(Time to complete: about 15 minutes and 7 minutes)

### Materials needed:

- Paper for your printer
- Ruler
- Scissors
- Fabric
- Marker or pen for tracing
- Pin
- Needle
- Thread
- Green colored thread for the vine

### How to make it:

For an experienced Poekie maker, this is easy. After printing and cutting the pattern,<sup>\*2</sup> just follow the usual steps.

- Place the patterns on an edge on the wrong side of your fabric.<sup>\*3</sup>
- Trace around the patterns.<sup>\*4</sup>
- Cut ON the lines you traced.

### Easter Flower Vine:

- Cut as many flowers and leaves as you like.
- Thread a needle with the green thread and tie a knot<sup>\*5</sup>, leaving a little bit of a 'tail.'
- Sew up and down one leaf, as marked on the pattern with the two dots.
- Take the two ends of the thread and tie them in a knot, just like your shoelaces (but no bow), under the leaf.
- Lay a flower petal and center on top of each other. Stick up through both, and then down through both.
- Tie a knot under the flower just like you did with the leaf.
- Continue adding leaves and flowers as you like.
- If you want, you can decorate your basket by sewing the ends to the ends of the handle, and securing the vine at the top with one stitch (or if your lazy, with a dab of glue).
- This vine is also great as a bracelet!

### Rosebud:

- Trace and cut one of each bud and leaf pattern.
- Thread a needle and tie a knot.
- Roll up the strip for the bud, so it becomes a spiral.
- Stick your needle in the bottom of the spiral, and go through it back and forth a few times.
- Fold the leaf over the stitched bottom and do a few more stitches back and forth, until it bends up a little and looks nice.
- Tie off your thread.

I can't wait to see what you've made at home and let me know if any part of these instructions is confusing!

With love from the Poekies,

sophia

\* For children age 8 and up, with parental guidance.

Warning: 1. Pins and needles' mission in life is to poke, and scissors only know how to cut. You must be careful and make sure that they poke and cut only the things that you want them to! 2. None of the materials used belong in a person's mouth, so be careful when you make this while little children are around you.

©2010 Sophia van der Harst

**Cutting Tip:**

- First cut out a strip of fabric as wide as the circle
- Then cut the strip into squares
- Then round the corners of the squares
